Portable Ultrasound Scanners Market Driving Factors Includes Rise in Prevalence of Targeted Diseases, Preference for Minimally Invasive Surgeries: Industry Analysis

Posted on Wednesday, October 31, 2018

Pune, India -- (SBWire) -- 10/31/2018 -- This study researches the market size of Portable Ultrasound Scanners in United States, European Union and China, presents the Portable Ultrasound Scanners production, consumption, value, product price, market share and growth rate by companies, type and application, history breakdown data from 2013 to 2018, and forecast to 2025.

For top companies in United States, European Union and China, this report investigates and analyzes the production, value, price, market share and growth rate for the top manufacturers, key data from 2013 to 2018.

Portable ultrasound scanner is a wireless medical device that uses high frequency sound waves to emit an image of internal body parts of the person.

Rise in prevalence of targeted diseases, increase in trauma and accident cases, preference for minimally invasive surgeries, and the rise of a geriatric population that has high risk of surgical procedures drives the portable ultrasound scanners market.

In 2018, the market size of Portable Ultrasound Scanners is xx million US$ and it will reach xx million US in 2025, growing at a CAGR of xx% from 2018; while in China, the market size is valued at xx million US$ and will increase to xx million US in 2025, with a CAGR of xx% during forecast period.

In this report, 2017 has been considered as the base year and 2018 to 2025 as the forecast period to estimate the market size for Portable Ultrasound Scanners.

In United States, European Union and China market, the following companies are covered:

General Electric Company

Samsung Group

Siemens Healthcare
Signostics Inc.
SonoSite, Inc.
Mindray Medical International Limited
Shenzhen Well.D Medical Electronics Co., Ltd.
Fukuda Denshi Co., Ltd.
Toshiba Corporation
Koninklijke Philips N.V.

Market Segment by Product Type

2D Ultrasound
3D and 4D Ultrasound
Doppler Ultrasound
High-Intensity Focused Ultrasound

Market Segment by Application

Radiology/General Imaging Applications
Obstetrics/Gynaecology Applications
Cardiology Applications
Urology Applications
Vascular Applications
FAST Application (Focused Assessment with Sonography for Trauma)

Other Applications

Key Regions split in this report:

United States
China
European Union
Rest of World (Japan, Korea, India and Southeast Asia)

Browse report Details with Complete ToC- https://www.qyresearch.com/index/detail/835179/united-states-european-union-and-china-portable-ultrasound-scanners-market

The study objectives are:

To analyze and research the Portable Ultrasound Scanners status and future forecast in United States, European Union and China, involving sales, value (revenue), growth rate (CAGR), market share, historical and forecast.

To present the key Portable Ultrasound Scanners manufacturers, presenting the sales, revenue, market share, and recent development for key players.

To split the breakdown data by regions, type, companies and applications

To analyze the global and key regions market potential and advantage, opportunity and challenge, restraints and risks.

To identify significant trends, drivers, influence factors in global and regions

To analyze competitive developments such as expansions, agreements, new product launches, and acquisitions in the market

In this study, the years considered to estimate the market size of Portable Ultrasound Scanners are as follows:

History Year: 2013-2018

Base Year: 2017

Estimated Year: 2018

Forecast Year 2018 to 2025

About Us

QYResearch, established in 2007, focuses on custom research, management consulting, IPO consulting, industry chain research, and data base &seminar services. The company owns large basic databases (such as National Bureau of Statistics Database, Customs Import and Export Database, Industry Association Database, etc.), expert resources (including industry experts who own more than 10 years experiences on marketing or R&D in industries of energy, automotive, chemicals, medical ICT consumer goods, etc.), professional survey team (the team members obtained more than 3 years market survey experience and more than 2 years deep expert interview experience), and excellent data analysis team (SPSS statistics and PPT graphics process team).

QYResearch has more than 4000 global well-known customers, covering more than 30 industries including energy, automobiles, pharmaceuticals, chemicals, agriculture, etc. Company services cover one-stop solution as
Data-Analysis-Suggestion-Consulting Implementation. Research regions cover China, US, EU, Asia, Middle East and Africa, South America, Australia, and other regions in the world. QYResearch built research or marketing centers in China (Beijing, Shanghai, Guangzhou, and Hong Kong), USA, Canada, Germany, UK, France, etc. Currently, QYResearch has become the first choice, worthy and trusted consulting brand in Global and Chinabusiness consulting services
