Global Amorphous Polyolefin Market Is Projected to Increase at US$ 580 Mn by 2025 End – QY Research

Posted on Tuesday, April 30, 2019

Amorphous Polyolefins Market research study stipulates a clear overview of the current market including the past and the projected future of market size concerning volume, technological advances, and economic elements in the market industry.

Los Angeles, CA -- (SBWire) -- 04/30/2019 -- QY Research has recently published a new report titled, "Global Amorphous Polyolefins Market Report, History and Forecast 2014-2025," which delivers key competitive insights and also provides a detailed study on the upcoming as well as a current market scenario of the amorphous polyolefins market. The market is witnessing significant growth due to the rising applications from the various end-use industries such as the automotive sector. According to this report, the global amorphous polyolefins market valued US$ 480 Mn in the year 2018 and is likely to be valued at US$ 580 Mn by the end of 2025. The market is growing with a lethargic CAGR of 2.9% over the forecasted period of 2019-2025.

Global Amorphous Polyolefin market: Drivers and Restraints
One of the key drivers that is expected to fuel the growth of the global amorphous polyolefins market is the rising eminence of the packaging sector across the world. Some of the factors such as the growing number of end-use industries and the increasing growth of automotive sectors are creating a positive impact on the growth of the market. The growing investment in the infrastructural development and construction sectors across developing and developed economies are likely to create lucrative opportunities in the global amorphous polyolefins market during the predicted period.

However, some of the factors such as fluctuations in the supply of raw materials such as Ziegler–Natta catalyst, ethylene, 1-butene, and propylene. The volatility in the prices of feedstock is creating a negative impact on the growth of the market in the near future.

Global Amorphous Polyolefin market: Forecast by Segmentation
The markets covered under the purview of the global amorphous polyolefins market is segmented into product type and applications. The application segment is segmented into Polymer Modification, Hot Melt Adhesive, Bitumen Modification, and Others. Based on the product type, the market is segmented into Propylene Homopolymer and Ethylene Copolymer, Propylene Homopolymer, Copolymer of Propylene and Ethylene, and Others.

Global Amorphous Polyolefin market: Forecast by Geography
The market of amorphous polyolefin in Asia Pacific region is likely to grow at a remarkable rate due to the growing construction and infrastructure activities in countries such as India and China. North America is expected to grow at a significant rate during the anticipated period. Europe is also growing at a moderate rate due to the increasing demand of amorphous polyolefin in automotive industry.

Global Amorphous Polyolefin market: Leading Players
Hangzhou Hangao, Evonik, Liaoyang Liaohua Qida Chemicals, Eastman, and REXtac are some of the top players that are operating in the global amorphous polyolefins market.

Global Amorphous Polyolefin market: Competitive Landscape
This research report has provided detailed information of the key vendors along with an insight on the performance of the top players across the world that are functioning in the global amorphous polyolefin market. Evonik is expected to be the leading player during the forecasted period.

Benefits of Purchasing QY Research Report
Analyst Support: Get your query resolved from our expert analysts before and after purchasing the report
Customer's Satisfaction: Our expert team will assist with all your research needs and customize the report
Inimitable Expertise: Analysts will provide deep insights about the reports
Assured Quality: We focus on the quality and accuracy of the report
