Peony Market Sales and Revenue by Companies, Regions, Type and Application Till 2025

Posted on Wednesday, May 08, 2019

QY Research has published the new industry research report focuses on Global major leading players with information such as company profiles, product picture, future road map, opportunities and investment.

Los Angeles, CA -- (SBWire) -- 05/08/2019 -- Peony is a flowering plant in the genus Paeonia, the only genus in the family Paeoniaceae. Peony varieties with huge, double flowers will be the focal point of the garden when they bloom in early summer. Single-flowered types are more subtle and combine well with other perennials. Flower colors include pink, red, white, and yellow, and the plants grow 18 inches to 3 feet tall, depending on the variety. Peonies make an attractive low hedge. However, they can take up to 3 years to mature, and don't perform well in hot summer climates.

Currently, the Netherlands peony occupy the absolute position, but the next few years there will be some change in the situation, his market will gradually be swallowed by other countries, especially China and the United States.

Although the Peony market is fire, but because they need high technology to storage and transport, meanwhile with high inspection standards, if cannot supported by the facilities, research do not recommended for new manufacturers to enter the field.

The global Peony market was 440 million US$ in 2018 and is expected to 580 million US$ by the end of 2025, growing at a CAGR of 3.3% between 2019 and 2025.
