Los Angeles, CA -- (SBWire) -- 05/21/2019 -- NDT equipment is used to evaluate and examine the properties of an object, material, or system without damaging it. The equipment includes three major components: ultrasonic, radiography, and visual test equipment. The major end-users of NDT equipment are industries in the Power Generation, Oil and Gas, Aerospace, and Automotive sectors.

Non-destructive testing are exercised for determining the physical properties of materials such as ductility, ultimate tensile strength and fracture toughness. The non-destructive testing is used to ensure product reliability and integrity to control manufacturing processes. In addition, stringent government safety regulations for quality control, ensure safety and reliable performance of the machines, and increasing demand to improve quality and longevity of the machines are the major factors that are driving the non-destructive testing equipment market globally.

This report studies the Nondestructive Testing(NDT) Equipment market size (value and volume) by players, regions, product types and end industries, history data 2014-2018 and forecast data 2019-2025; This report also studies the global market competition landscape, market drivers and trends, opportunities and challenges, risks and entry barriers, sales channels, distributors and Porter's Five Forces Analysis.

Major Key Manufacturers of Nondestructive Testing(NDT) Equipment Market are:

Olympus Corporation, GE, Sonatest, Parker, YXLON, Magnaflux, Rigaku, Nikon, Acoustic Control Systems, Olson Instrument, Karl deutsch, MODSONIC, West Penn Testing, Advanced NDT, Beiji Xingchen, Ultrasonic, Zetec, Times, Nengda, Dr. Foerster,

Segmentation by Product-

Laser Testing, Magnetic Flux Leakage, Magnetic Particle, Ultrasonic Testing,

Segmentation by Application-

Metallurgy, Electricity, Petrochemical, Ship, Aerospace,
Regions Covered in the Global Nondestructive Testing (NDT) Equipment Market:-

The Middle East and Africa (GCC Countries and Egypt)
North America (the United States, Mexico, and Canada)
South America (Brazil etc.)
Europe (Turkey, Germany, Russia UK, Italy, France, etc.)
Asia-Pacific (Vietnam, China, Malaysia, Japan, Philippines, Korea, Thailand, India, Indonesia, and Australia)

Strategic Points Covered in TOC:

Chapter 1: Introduction, market driving force, product scope, market risk, market overview, and market opportunities of the global Nondestructive Testing (NDT) Equipment market

Chapter 2: Evaluating the leading manufacturers of the global Nondestructive Testing (NDT) Equipment market which consists of its revenue, sales, and price of the products

Chapter 3: Displaying the competitive nature among key manufacturers, with market share, revenue, and sales

Chapter 4: Presenting global Nondestructive Testing (NDT) Equipment market by regions, market share and with revenue and sales for the projected period

Chapter 5, 6, 7, 8 and 9: To evaluate the market by segments, by countries and by manufacturers with revenue share and sales by key countries in these various regions

Finally, the global Nondestructive Testing (NDT) Equipment Market is a valuable source of guidance for individuals and companies. One of the major reasons behind providing market attractiveness index is to help the target audience and clients to identify the several market opportunities in the global Nondestructive Testing (NDT) Equipment market. Moreover, for the better understanding of the market, QY Research has also presented a key to get information about various segments of the global Nondestructive Testing (NDT) Equipment market.

About QYResearch
QYResearch established in 2007, focus on custom research, management consulting, IPO consulting, industry chain research, data base and seminar services. The company owned a large basic data base (such as National Bureau of statistics database, Customs import and export database, Industry Association Database etc.), expert's resources (included energy automotive chemical medical ICT consumer goods etc.)
