Graft Versus Host Disease (GVHD) Therapeutics Development and Professional Pipeline Review H1 2017

New York, NY -- (SBWire) -- 05/08/2017 --Graft Versus Host Disease (GVHD) - Pipeline Review, H1 2017

GET SAMPLE REPORT @ https://www.wiseguyreports.com/sample-request/1248519-graft-versus-host-disease-gvhd-pipeline-review-h1-2017

Summary

Graft-versus-host disease (GVHD) is a complication that can occur after a stem cell or bone marrow transplant in which the newly transplanted donor cells attack the transplant recipient's body. Symptoms include abdominal pain or cramps, nausea, vomiting, and diarrhea, dry or irritated eyes, jaundice, shortness of breath, vaginal dryness and weight loss. Treatment includes immunosuppressants.

Report Highlights

Global Markets Direct's Pharmaceutical and Healthcare latest pipeline guide Graft Versus Host Disease (GVHD) – Pipeline Review, H1 2017, provides comprehensive information on the therapeutics under development for Graft Versus Host Disease (GVHD) (Immunology), complete with analysis by stage of development, drug target, mechanism of action (MoA), route of administration (RoA) and molecule type. The guide covers the descriptive pharmacological action of the therapeutics, its complete research and development history and latest news and press releases.

The Graft Versus Host Disease (GVHD) (Immunology) pipeline guide also reviews of key players involved in therapeutic development for Graft Versus Host Disease (GVHD) and features dormant and discontinued projects. The guide covers therapeutics under Development by Companies /Universities /Institutes, the molecules developed by Companies in Pre-Registration, Filing rejected/Withdrawn, Phase III, Phase II, Phase I, Preclinical, Discovery and Unknown stages are 1, 1, 7, 23, 11, 35, 7 and 3 respectively. Similarly, the Universities portfolio in Phase II, Phase I, Preclinical and Discovery stages comprises 1, 3, 13 and 2 molecules, respectively.

Graft Versus Host Disease (GVHD) (Immunology) pipeline guide helps in identifying and tracking emerging players in the market and their portfolios, enhances decision making capabilities and helps to create effective
counter strategies to gain competitive advantage. The guide is built using data and information sourced from Global Markets Direct's proprietary databases, company/university websites, clinical trial registries, conferences, SEC filings, investor presentations and featured press releases from company/university sites and industry-specific third party sources. Additionally, various dynamic tracking processes ensure that the most recent developments are captured on a real time basis.

Scope

- The pipeline guide provides a snapshot of the global therapeutic landscape of Graft Versus Host Disease (GVHD) (Immunology).

- The pipeline guide reviews pipeline therapeutics for Graft Versus Host Disease (GVHD) (Immunology) by companies and universities/research institutes based on information derived from company and industry-specific sources.

- The pipeline guide covers pipeline products based on several stages of development ranging from pre-registration till discovery and undisclosed stages.

- The pipeline guide features descriptive drug profiles for the pipeline products which comprise, product description, descriptive licensing and collaboration details, R&D brief, MoA & other developmental activities.

- The pipeline guide reviews key companies involved in Graft Versus Host Disease (GVHD) (Immunology) therapeutics and enlists all their major and minor projects.

- The pipeline guide evaluates Graft Versus Host Disease (GVHD) (Immunology) therapeutics based on mechanism of action (MoA), drug target, route of administration (RoA) and molecule type.

- The pipeline guide encapsulates all the dormant and discontinued pipeline projects.

- The pipeline guide reviews latest news related to pipeline therapeutics for Graft Versus Host Disease (GVHD) (Immunology)

Key points to buy

- Procure strategically important competitor information, analysis, and insights to formulate effective R&D strategies.

- Recognize emerging players with potentially strong product portfolio and create effective counter-strategies to gain competitive advantage.

- Find and recognize significant and varied types of therapeutics under development for Graft Versus Host Disease (GVHD) (Immunology).

- Classify potential new clients or partners in the target demographic.
- Develop tactical initiatives by understanding the focus areas of leading companies.

- Plan mergers and acquisitions meritoriously by identifying key players and it's most promising pipeline therapeutics.

- Formulate corrective measures for pipeline projects by understanding Graft Versus Host Disease (GVHD) (Immunology) pipeline depth and focus of Indication therapeutics.

- Develop and design in-licensing and out-licensing strategies by identifying prospective partners with the most attractive projects to enhance and expand business potential and scope.

- Adjust the therapeutic portfolio by recognizing discontinued projects and understand from the know-how what drove them from pipeline.
